PROFESSIONAL SUMMARY

Full-Stack Developer pursuing an Associate Degree in Systems Analysis and Development and undergoing full-time intensive training at Alpha EdTech. Builds web and mobile applications with React, Next.js, Node.js, and TypeScript, combining development logic with a solid vision of UX/UI. Author of complete personal projects (web and mobile) featuring authentication, automated tests, and cloud storage integration. Self-taught profile, oriented towards code best practices and end-to-end delivery — from design to production.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, HTML5, CSS3
- **Front-End:** React, Next.js, Tailwind CSS, responsive design, REST API consumption
- **Back-End:** Node.js, NestJS, REST APIs, authentication (NextAuth)
- **Mobile:** Flutter
- **Database / ORM:** PostgreSQL, Prisma, SQLite
- **Cloud, Testing & Tools:** Vercel, Cloudflare R2, Git/GitHub, Jest, Playwright
- **Design:** UX/UI Design, Figma, Corel Draw

PROFESSIONAL EXPERIENCE

Salesperson — Fase Sport

Teixeira de Freitas, Bahia, Brazil (On-site) | Full-time | Oct/2023 – Present

- Develop custom art and uniform layouts using Corel Draw, ensuring visual identity and final product quality.
- Organize and track orders from end to end, from initial contact with the customer to finalization and delivery of the material.
- Perform customer service and negotiation with different client profiles, including individuals, small to large businesses, and regional professional teams.
- Acquire and retain relevant clients for the brand through consultative and personalized service.
- Developed, in parallel, the store's digital catalog and conversion platform (Next.js, Prisma, Cloudflare R2), applying my development skills in practice to the business I work in.

PROJECTS

DataBolsa

github.com/NikolasTesch/databolsa

- Web and mobile platform for investment portfolio tracking and equity analysis.
- Technologies: Next.js, Flutter, NestJS, Prisma.

BarberAG

github.com/NikolasTesch/barberag

- Complete management system for barbershops, featuring online scheduling and administrative dashboards.
- Technologies: Next.js, TypeScript, Playwright (end-to-end testing).
